ENTREPRENEURSHIP MAJOR (ENTR)

The Entrepreneurship (ENTR) major empowers students by providing them with the knowledge, skills, connections and resources needed to successfully launch a startup, foster innovation for an established company or develop sustainable solutions to important societal problems. Entrepreneurship majors learn how to recognize opportunity, generate ideas, validate business models, influence others, bring innovative solutions to market, and launch and grow new ventures.

TESTIMONIALS

"Being part of the Horn Program has taught me how to challenge myself and to learn from my failures and to celebrate successes. I have been pushed in more ways that I could have imagined and I have only grown stronger from this. I learned how to think differently and I have built relationships that I will hold onto forever. I also learned that you may never know the answer right away but to keep trying new things can bring you closer to understanding your passion."

- Emma Lynch, '19

"This major is equipped with action packed materials to help students succeed, even if they don't intend on starting their own business. Because entrepreneurs aren't just business owners, they're those who change and positively impact lives."

- Eastwood Bempoh, '22
